A friend referred me to Lisa, and my skeptical brain was silenced within moments of meeting her. I communicated with my deceased uncle, aunt, grandma, and my beautiful dog. The feelings and facts communicated to me through Lisa were incredibly accurate and insightful, and they gave me so much peace. When the session was over, I really felt like I had just had coffee with these dear loved ones. She's truly amazing. Oh, and she's also super warm and kind! Please, let her share her gift with you!

I had been suffering from an acute jaw infection and was so fortunate to have Lisa send me reiki remotely! She helped me on two occasions, each a week apart. The first one was instantaneous and my fever broke that same night. During the second one, Lisa sent me colors to focus on (that specifically represented the chakras of the jaw region). Today, as I headed for yet another root canal, I knew that my pain had subsided.

However, I was astonished to see that my X-rays were different than the ones taken 2 days before! My surgeon was also amazed. In the end, I was able to avoid the root canal! Lisa is the best remote chakra and reiki practitioner that I have ever worked with! Thank you Lisa for bestowing me with your gifts and talent!

- Terri (New York)

Lisa changed my life! I went to her for Chakra Balancing and I received so much more. It was an emotional and enlightening spiritual journey. I was able to hear from my loved ones with messages that I will cherish forever. Since seeing Lisa, I feel much calmer, focused and balanced. I will be seeing her again and have recommended her to many friends and co-workers. Thank you for opening me up to a whole new world.

I'm forever grateful.

- Donna (Redwood City, CA)

I was struck with how accurate Lisa had been, and I couldn't think of any reasonable explanation as to how she'd known so much about Mark, Chris, Grandma Anne, and Tyson... other than she had actually been in communication with them. What really resonated about the whole experience was the feeling of connection I'd felt. It was as if I'd gone in search of Tyson and had unexpectedly crossed paths with long-lost loved ones, and we'd enjoyed a cup of coffee together.
